

## General Activities

- Develop graphic design and/or photo editing skills while Adobe suite is at discounted price for students
- Design your own personal lego sets with free online software through Lego
  - <https://www.lego.com/en-us/ldd>
- Colleges or universities offering free, online courses
  - <https://www.businessinsider.com/free-online-courses-from-best-colleges>
- Analyze how critical theories such as Marxism or Feminism may impact your fields of research
- Play the Wikipedia game! Pick two random nouns. Start on the first noun's Wikipedia page. Try to get to the second through only clicking links within the Wikipedia articles. Whoever gets to the second noun first wins!

## Coding

- Statistical programming languages such as R, Python, and SQL
  - <https://learn.datacamp.com/>
- HTML, Java, C++, and other computer science programming languages
  - <https://www.codecademy.com/learn/learn-how-to-code>
- Wide variety of coding languages and applications
  - <https://www.linkedin.com/learning>

## Language Practice

- Duolingo <https://www.duolingo.com/>
- Mango Languages - Free to users with a UT netid (<https://libguides.utk.edu/c.php?g=291722&p=6030318>)
- <https://www.babbel.com/>

## Professionalization

- Make a Handshake account <https://career.utk.edu/handshake/>
- Make a LinkedIn account <https://www.linkedin.com/>
- Utilize UT's Career Center (<https://career.utk.edu/>) for developing a resume and planning for your postgraduate plans

- Use UT's Office of Undergraduate Research (<https://ugresearch.utk.edu/>) and Office of National Scholarships and Fellowships (<https://onsf.utk.edu/>) to plan for conference presentations and national scholarship applications
- Explore job opportunities
  - <https://career.utk.edu/students/find-jobs/>
  - <https://www.careershift.com/>
- Familiarize yourself with UT's course offerings and both major and minor requirements <https://catalog.utk.edu/>
- Explore the rankings of graduate schools in your area of interest and find scholars with whom you would be interested in working
  - <https://www.usnews.com/best-colleges>
- Explore post-graduation opportunities. Reach out to professors or professionals in your field of interest and perform informational interviews.
  - Utilize your club or organizations resources, or take the time to get in contact with the resources available through the Center for Career Development. Every college has at least one counselor assigned specifically to that discipline.
- The Center for Career Development has moved a number of their resources online. In particular, they offer virtual mock interviews over Zoom. They are also offering some opportunities for virtual career fairs.
